EICSE

Divine Inspiration on Iona

EICSE - Divine Inspiration at the Brink of the Waters

In Alwyn Rees' CELTIC HERITAGE, *"The thin line between opposites has essentially the same significance as the dangerous bridges that lead to the citadels of the other world... Irish poets deemed that the brink of water was always a place where eicse - 'wisdom', 'poetry', 'knowledge' - was revealed."* Rees extends this concept to the juncture between two seasons, or to a plant like mistletoe, which is neither a shrub nor a tree. To nimbly jump back and forth between this world and another would not be as spiritually significant as being aware of this supernatural juncture.

Greetings!

This is going to be such a wonderful time. What better place to bring the healing qualities of our therapeutic harp conference than to be on the Isle of Iona and be in the absolute centre of healing on the planet! Our conference which usually runs 2 days in most years will be leisurely this time spread over 4 days - allowing us time for integration, for exploration of the island while incorporating the profound callings of why we are here on this planet.

Fionntulach, a leader in the Ceile De tradition, will guide us for two days in the Sacred Ceile de Tradition known to the island that was the forerunner of the early Christian settlements by St. Columba. She will guide us into that thin place between the veils!

WELCOME - The St. Columba Hotel offers superb food and warm, friendly service in an environment of relaxation and comfort. Comfortable sun lounges and restaurant provide glorious panoramic views, in ever changing colors over the Sound of Iona to the Ross of Mull and the mountains beyond. An open fire warms the inner lounge.

ISLE OF IONA - The famous Inner Hebridean island is only three miles long by a mile and a half wide. The ferry from the Isle of Mull to Iona takes approximately five minutes. Even before the Christian era, Iona was considered to be a place of special spiritual significance - there are said to have been over 300 standing stones on the island. Today it is most famous for the coming of the passionate and renegade St. Columba from Ireland in 563 AD. The Saint founded a small Celtic monastery here, and for 34 years, carried on his work of introducing Christianity to the Scottish mainland until his death in 597 AD.

The Benedictine Abbey was built in the 12th Century, but fell into ruin after the Reformation. The buildings have now been restored.

There are many explanations of the origin of the word "Iona", and some think it is derived from I-shona, the Blessed or sacred Isle. It is also curiously significant that the Hebrew word for Dove is "Iona", the Latin 'Columba'. Optional Trip - Local boats sail twice daily to the Isle of Staffa where you will find Fingal's Cave. Wildlife including whales, dolphins, porpoise, basking sharks, seal pups, puffins and many other sea birds are often sighted on these trips.

Within walking distance of the hotel are a wonderful choice of beaches, mainly of white sand, others with multi-coloured pebbles and shells. It is hard to leave the island without a pocket full of treasures. Expect to enjoy sand dunes, rock pools, beach-combing and excellent swimming, when the sun shines, in crystal clear turquoise water. Packed lunches may be ordered in advance and bikes are available to hire on the island.

The list is in order of notification of interest - then status listed next to the name. As you can see, there is still room to sign up if you think you might be doing the trip. The sooner you think you might be able to make the trip, the better to let us know. Then if you can't come, we will start giving spaces to people on the waiting list. There are other programs of therapeutic musicians who are eager to be on this list but we are waiting until we hear from the IHTP family.
