

IHTP REPERTOIRE STUDY

The six required pieces. Four of these songs fit into the Chinese Five Elemental Modes. Please choose from the following so that you will have music to play to balance energies (you will learn about this in DVD Lesson #9). Begin working on the following selections – any level presented in the book and you can do your own arrangement or embellishment of the song:

1. [Click here](#) for Illuminations Healing Harp Book and CD.
 1. Little Dove or Unite (Earth Element) – This is Ionian Mode played in moderate tempo and light.
 2. Harbor Cove or Tranquility (Water Element) – This is a deep Aeolian Mode played slowly.
 3. Shadow Spirit or Annwyn (Wood Element) – This is a light Aeolian Mode played flowingly.
 4. Diamonds from Heaven or Cherubim (Fire Element) – This is a Major Mode – Ionian or sometimes Mixolydian that is played up tempo. These should be played rather quickly.
 5. Clair de Lune (page 132 in the Illuminations Healing Harp Book) – A detailed fingering guide is found here.
 6. Somewhere Over The Rainbow – ([CONTACT](#) for the arrangement)

These pieces have structure yet are unfamiliar (except Clair de Lune) and serve the various human elements. For the Metal Element, the Chanter or Scarborough Faire in the Dorian mode is appropriate.

For Beginning Students who need easier songs to meet this requirement of Music Development, they may study the Color My World DVD series and learn any of these songs to use in place of the above.

Water Element: Songs in the Deep Aeolian Mode

Harbor Cove - Green Series
Tranquility - Yellow Series
